U. S. Senators at Geneva

LOCAL 3 LEGISLATIVE COMMITTEE IS GRATEFUL FOR LLPE RESPONSE

Local Union No. 2's Legislative Committee wishes to express its membership its appreciation for the grand response on contributions made for Labor's League for Political Education—the drive for funds to elect to legislative offices friends of Labor and to defeat Labor's enemies.

The Taft-Hartley Act forbids the use of Union funds in the election of candidates to Federal offices, and all money used by Labor to elect its candidates must be secured through voluntary contributions.

The response of the membership to date is most gratifying and is a challenge to legislators of the Taft-Hartley type. It is a direct, positive answer to the foes of organized labor who state that the rank and file of Labor do not care. Let us all contribute that Labor can meet dollar for dollar, that fund of Labor's strength. This is the fight of every working man.

We request that all of you who have not contributed to the fund or who are not yet in benefit will not be required to pay this assessment.

Members who are now in benefit in the fund are required to contribute within two weeks after notification. If not paid, such member or the beneficiary thereof may be charged an equivalent amount of benefit from the fund for a period of such time as is necessary to meet such delinquency.

The By-Laws require that assessments be collected before dues are accepted. (Deadline date—Aug. 20, 1950)

STATEMENT

GOOD STANDING FUND

It has also necessary to levy a second assessment for this fund, and, in addition to assessments of twenty-five cents ($0.25) each, you are requested to your business representative, who is

favor Statehood

Washington.—Hills to give statehood to Alaska and Hawaii, supported by labor for years, may still be acted on favorably in the 81st Congress, Sen. Joseph C. O'Malley (D-Wy.) and July 9.

OFFICIAL NOTICE TO MEMBERS

KOREA—Remnant of the War

The War in Korea has had a profound effect. This past year has been devastating, and the heroism and courage of America has been tested. May the peace that we have fought for bring about a new era of freedom and peace.

FAR-AWAY PLACES—Sensed beneath the wing of a west coast B-39, an Air Force sergeant writes a letter to his folks. He was aboard one of 30-super-bombers that left March Field for the Korean front and which eight days later dropped some 20 tons of bombs on war targets,

The effect of a fast-growing war economy, plus local war-connected activity, on California wage-earners was good news from the jobs standpoint, but bad news on the side of price increases and prospective wage-freezing.

Thus while hard-pressed needed jobs and a good job outlook—always comforting to worried wage-earners, it also brought a nick in the pocketbook, a questionable gain.

From the waterfront to far inland, the momentum of the new western frontier is felt in jobs. Shipyards have stepped up hiring to put badly needed naval ships into service, a need that coast unions have been shooing about for the past three years. And the field was due for direct, substantial growth.

BUSINESS HYPOTHETIC

All related shipping activities have stepped up, as has the field of ship repair. Upstream plants are easing shortages from both the war-supply and the potential-trade viewpoints. Island communities have begun to gear their planning for prospective war conditions, which means hurried activity on half-completed and air-conditioned projects.

All this means more jobs.

On the other side of the ledger, union officers are keeping one eye on the cost-of-living index, remembering recently-negotiated annual wage agreements, and the other eye on the nation's supply, where top brass is already in a high-brow war-shots, explosions, price-rises, and wage-wellings.
Brothers were reported and their full thus least they have not disfranchised themselves ahead of who are registered many do not bother to vote, but at a new poll politically. They have the right to register to while they themselves lands where ordinary people just get since he has never used his franchise to help who are registered. It is the most priceless privilege and enjoy the blessings democracy can done as much harm as nor has there ever been any abuse or corruption that has。「The man or foreigners on election day. They disfranchise them themselves in the category of children 1943, at the Postoffice at Washington, D.C., on April 24.

Washington - In a recent letter Carriers, ring replica of Liberty Bell to signal that recent the subscription price of $2.50. Subscription $1,000,000.

"Voters, Who Don't Register, Do Not Belong in Our U.S.A."

Over half of the eligible voters of the United States have never registered to vote. Consequently they invariably find themselves in the category of citizens and foreigners on election day. They disfranchise themselves by neglecting to register. They never vote and by thus shirking their first and most important duty as citizens they are directly responsible for every crook and grafter, who gets elected in their own district, with their full and unqualified consent.

Fntill recently the members of our unions have made every bit as poor a showing as the rest of the population in the matter of getting registered. In most of our unions members are as negligent as ever about not getting registered. Of the 62 million people now employed in the U.S. only one out of five is unionized, and of those who are registered many do not bother to vote, but at least they have not disfranchised themselves ahead of time by not getting registered. They are in line to vote if they want to but the unregistered voters have completely disqualified themselves and could not vote if they wanted to.

The man or woman citizen, who fails to register, is a manakin politically. They have the right to register and to vote but they have not enough sense and initiative to exercise those rights. As a result they are complete nonentities on election day, when they should be helping to decide who is to run our country. The worse our country is run the more those unregistered voters are to blame for it because they have not so much as lifted a finger to prevent it or to help secure a better government, by electing honest and capable officials. Although those unregistered voters do not get to stick around and enjoy the blessings that still come to those who live and work in our U.S. A, they really do not belong here at all. They should be deported to the lands or to such lands from where ordinary people just get pushed around, while they themselves have nothing to say about it.

An unregistered voter has no right to complain about rott enness and corruption in our American government, since he has never used his franchise to help change this. The worse things become the more he is to blame because it is the neglect and indifference of the tremendously large percentage of our citizens, who do not value their right to vote enough to exercise it, who are the chief cause of most of our ills.

Our forefathers sacrificed and at times gave their lives to gain for those who came after them the right to vote. It is the most priceless privilege that true democracy can guarantee to its citizens. In the South there are still states where the right to vote is not yet fully established, but little by little they are coming around to correct this just as many abuses formerly practiced in most of our northern states to disfranchising voters are gradually disappearing. But there is not now nor has there ever been any abuse or corruption that has done so much harm as actually results from the failure of over half of our qualified voters to exercise their right to help elect every official.

FARMINGHAM DAM GOES 3 SHIFTS AND THE DIRT FLIES

By ED DORAN and GLENN DOBYS

Morrison-Knudsen have settled down to an even keel on the Farmingham Dam job, now that the upsurge of moving in of manpower has died down. There are now 240 hands on the job and everything is running according to schedule.

No doubt everyone has heard about the two new tractors that have appeared on the Farmingham Dam job. We have heard your comments, but now we have pictures of the MK's three tractors seen on the Farmingham Dam and they have proven successful in pulling the big heaves and shifting the earth. The records, they are putting out 14 yards every 30 seconds. "Dirt-

In two months the Farmingham Di-

vers) is quite proud of the produc-

tion. The job is being super-

visioned by Bro. Jack Munn of the AFL. With more work coming up - in campaign at Crescent City, the job is running as smooth as silk.

By CHET ELLIOTT

Pipe, Highway, Peninsula Jobs

By OTTO E. NEYER

Business Representative, Local 3

The Redwood Empire is busy. In fact, we have called the

busiest season of the year.

N. M. Bull and Sons have a 12-man crew working this season. The work is moving along nicely and we expect the job to be finished by the end of the season.

Morrison-Knudsen, Inc. & Co., are working two shifts on the shovels and are keeping all hands busy. However, we have received word that the government has called a stop on all work on the Farmingham Dam.

Mann-Kreis & Co. are working on a drywall job at the Roehnerville Airport.

We've had several more members working on 2300 jobs and 3D work. In fact, this is about the busiest season we have ever had.
GETTING AROUND THE JOBS

The downtown area has a number of small stores and offices where you can find a variety of shops and restaurants to suit your needs. There are several restaurants in the area that offer a range of cuisine, from American to Asian, to satisfy your taste buds.

There are also several parks and outdoor areas in the downtown area, including a beautiful riverwalk that runs along the river. This is a great place to take a walk, relax, and enjoy the scenery.

In addition to the restaurants and parks, there are a number of art galleries and museums in the downtown area. These provide a great opportunity to explore and appreciate the local art scene.

Overall, the downtown area has a lot to offer, from delicious food to unique shopping experiences, and there is sure to be something for everyone.

OTR

From:

Subject: OTR

Hi,

I wanted to follow up on our conversation yesterday about the OTR position.

We discussed the possibility of you working as a Driver for our company, and I wanted to get back to you with some more information.

The position involves driving over the road and traveling for long periods of time. We have a variety of routes available, so we can tailor the job to your preferences.

The pay is competitive, and we offer a comprehensive benefits package to our employees.

Let me know if you're interested in learning more or if you have any questions.

Best regards,
[Your Name]
SACRAMENTO—

Engineers Join in Building Sacramento Labor Temple

By E. F. PARK and R. S. CLARK

Plans are ready and bids will soon be called for on the new Labor Center here in Sacramento. The membership of Local Union No. 5 can well be proud of the part they have taken in making such an enterprise possible.

Bonds together with the Carpenters, Laborers and Teamsters, the Engineers have helped to form the C. E. & L. T. Assn. which is the analyzing and operating company of the building and ground. Nearly all the building trade locals, as well as the Building Trades Council, will now have offices in the new building and many miscellaneous unions have requested space for their locals.

Plenty of parking space will be one of the main features of the new site, located on the east side of Stockton Blvd., between Y and S, second Ave. The new lot is 500 feet in depth, with a 105-foot frontage on Stockton Blvd., and 500 feet wide at the rear, which is on 4th St. There will be parking for 200 cars on the project besides a 3-story work building which will have more than 1,000 square feet of floor space.

Bids will be out by July 15 and it is hoped that actual construction will begin immediately after the first of August. Barring unusual weather, the building will be ready for occupancy by the 1st of January.

Work in the area during the past month has continued to increase with the exception of one or two exceptional days. The call for the laborers has been unceasing with the demand for operators on the project.

Work on the Polk Dam is being maintained, and that on the Folsom Dam is being pushed along to meet its deadline, scheduled for this November.

SACRAMENTO—

Calif—For a speedy recovery got Roy, W. C. Weir who is in the Sutter Hospital suffering from peritonitis caused when a result of an accident at the Victor Point project, under the supervision of Bros. Dave Young.

Roy, early today is back on the job for Bill Terry Trenching Co. From all indications, it appears the accident and it is now under the supervision of Bros. Dave Young.

Hopes for a speedy recovery are back to Roy, Alcock Wyckoff, who is doing well at the Sutter Hospital with pneumonia.

Claude President of the Building Trades Iocals, has moved their offices to the new building and the little town of Galt, which is only a short few of miles away, has a new home.

July 500 feet in depth, with a 105-foot frontage on Stockton Blvd., and 500 feet wide at the rear, which is on 4th St. There will be parking for 200 cars on the project besides a 3-story work building which will have more than 1,000 square feet of floor space.

Bids will be out by July 15 and it is hoped that actual construction will begin immediately after the first of August. Barring unusual weather, the building will be ready for occupancy by the 1st of January.

Great deal of parking space will be one of the main features of the new site, located on the east side of Stockton Blvd., between Y and S, second Ave. The new lot is 500 feet in depth, with a 105-foot frontage on Stockton Blvd., and 500 feet wide at the rear, which is on 4th St. There will be parking for 200 cars on the project besides a 3-story work building which will have more than 1,000 square feet of floor space.

San Rafael—New Contracts Are Awarded in NorthBay Area

By C. L. CASEBOLD
Business Representative, Local 3

Listing a few of many contracts awarded in this area during the past month:

Parish Brothers of Benicia were awarded the grading, surfacing and installing of a high-impact asphalt from San Rafael to Mill Valley at $1,003,000 five miles approximately, between Cerradilla Underpass and Ledgewood Creek.

C. Dudley DeVilliss Construction Company of Richmond are planning the construction and grading of the range before winter rains in Benicia.

Black for primary treatment plant for Mill Valley will be opened Aug. 27th by the San Francisco-Walnut and Petaluma, Board to decide on design and sufficient to be pumped to the system.

Black is to be opened July 21 for construction of drainage system with a 100,000 gallon capacity per day, approximately 10 miles long.

L. Hey and Sons, office manager for Raisch have moved their operations in Novato.

'Sonoma County Landscaping' of Sonoma have been awarded the contract for construction of the new Novato sewage treatment plant.

Dura-Base Co., of Benicia obtained a contract for a paper mill at Lake Almanor, California.

Walter F. Egan of Alameda has been awarded the job of completing the P.P.B. Co. job in Chico.

John V. DeVilbiss of San Francisco are planning to build a primary treatment plant for Rock Creek Dam, at Belden, Calif., with a garage.

MORRISON-KNUDSEN Co., has been awarded a contract for the Air Force (Civil Works) of North California.

The construction of a water-treatment plant for Rancho Cordova, near Folsom will be awarded to a local firm.

Harry K. Hoffman, superintendent for Chico Water in Chico, has five members already on his care-force.

Ryanos and Jesse of Woodland, have had two or three jobs in the area and we would like to go in and see if in our new building in Sonoma. I was not able to find our contract has been moved to the city of Novato.

Dick Jenkins of Willow Hill have three members of their local there now.

Bro. Harold V. Jenkins of Willow keeps his 3½ yard Lima line now and Bro. Red Franks keeps busy in the same area.

Norte Construction Co. on the grounds alone at Rohnert Park, Cale., have five members already on their care-force.

Ares and Jesse of Woodland have had two or three jobs in the area and we would like to go in and see if in our new building in Sonoma. I was not able to find our contract has been moved to the city of Novato.

Work has picked up in San Francisco and the contractors have been hiring more hands for the job.

There has been a lot of activity at the Stoneman Project. Floyd Watson has doubled the number of carpenters. The total payroll for the whole union, repair work. Brother Mat Greaves started the water will come in too or any other property of the union, repair work. Brother Mat Greaves is concerned.

July 15, Work has picked up in downtown Redding and the area.

The F.E. Young job at Spreckels is doing well. When TahoegNevada REDDING AREA has started, the water will come in too or any other property of the union, repair work. Brother Mat Greaves started the water will come in too or any other property of the union, repair work.

Donald tells us that the condition is fog. We have heard of his traffic and the problems.

He tells us that he is working for Burtwell in Ariza and says the job is going to be a good one.

PERSONAL TOUCH

A few letters have been received from the men working on some of the outside projects. Brother Roy Campbell tells us that the conditions are fair at Oklahoma and he is doing all right working with the Weatherford family. We hope that he is working for Burtwell in Ariza and says the job is going to be a good one.

Roy Carpenter is going back to Illinois and says that his job is going to be a good one.

Carpenter is going back to Illinois and says that his job is going to be a good one.

Bill Donald tells us that the conditions are fair at Oklahoma and he is doing all right working with the Weatherford family. We hope that he is working for Burtwell in Ariza and says the job is going to be a good one.

Welcome home to Bill Donald who has been in Ginn and says the job is going to be a good one.

Voting Results

H.G. Mitchell, M.D., received 100 votes for the position of Secretary. He is a member of the Stoneman Project.
The death of 42 workers as a result of work accidents in 1952 was the most tragic in the history of the organized labor movement. The newspapers of Portland and other towns reported that there had been an accident in every town south of Portland. The death of 42 workers was a result of work accidents in 1952. The newspapers of Portland and other towns reported that there had been an accident in every town south of Portland. The death of 42 workers was a result of work accidents in 1952.
