ADMINISTRATION CHANGES

Due to former president Steve Ingersoll's recent retirement, some changes have occurred within your Administration. Get the details here.

PRE-RETIREE CALL-IN MEETINGS THIS MONTH

If you're up for retirement soon, you won't want to miss the upcoming Pre-Retiree Call-in Meetings. Get the details on how to access these meetings and when they occur, here!

WOMEN OPERATORS RULE

Signatory company Anrak makes a point of hiring women operators, because they are just plain good. Find out why in this spotlight on the women operators making a difference in this asphalt-milling and sweeper services corporation.

NORTHERN NEVADA APPRENTICESHIP GRADUATION

Fourteen apprentices in Northern Nevada recently graduated. See who they are and which ones received individual awards in this story.

A HISTORY OF HEALTH AND SAFETY IN LOCAL 3

Find out how Local 3 made history, not just in its foundation but in the foresight it had to create programs, policies and training geared around the mental and physical health of its members. Many of these are still in use today.

> At the Teichert shop in Sacramento, apprentices like **PETE KNELL** (foreground) work alongside experienced Heavy Duty Repairers (HDRs), like 25-year member **BEN WOLF** (background).

Jobs, jobs, jobs in the coming work season

If you were at the Semi-Annual Event last month, I hope you enjoyed the information, the fellowship and the food! We will publish photos and more information from the event in next month's edition, as the press deadlines did not make it possible for this month. The main takeaways from the event: Your union is strong (in terms of membership, jobs, organizing, Pension/Health and Welfare and compliance) and our history is what has given us the foundation for such strength today. However, we can always be stronger. That rests with the input and participation from the membership. This year, try to attend something you may not have attended before (like a picnic, a district meeting, the next Semi-Annual or a Voice of the Engineer (VOTE) event) and see how impactful that can be, not just for your union but also for your sense of fulfillment in being a part of something bigger, a community.

The other important announcement from the meeting was that former president Steve Ingersoll retired as of March 1, 2024, and in accordance with the Bylaws of Local 3, the officers have appointed Justin Diston as president to fill the remainder of his term. The officers have also appointed Bruce Noel as Vice President, Dave Harrison as Rec.-Corres. Secretary, Nate Tucker as Financial Secretary and your newest officer, Jimmy Jacobs, as Treasurer.

Jimmy will do a great job in this role, as he has been a Local 3 member since 1990 and has served the membership in many capacities prior to this appointment. Previously, Jimmy served as the Crane Representative for Local 3 in 2006, the Special Rep. for Cranes and Dredging from 2006 to 2016 and District Rep. in Fairfield District 04 from 2016 to 2024. Jimmy has been a Union Trustee for the Joint Labor Management Trust Fund since 2006 and was elected as an OE3 Trustee in 2021. Jimmy is a very recent Harvard Trade Union graduate (2024), and if you want to hear about that experience, he will happily share. It is Jimmy's enthusiasm, his openness and his deep institutional knowledge that will make him a great addition to your administration. He will go into greater detail about who he is in next month's addition. Welcome, Jimmy!

This edition includes an insider's look at a Teichert Shop and the important work our shop crews do, as they prepare for equipment overhauls in time for the work season. You'll also notice that the years of experience these Heavy Duty Repairers (HDRs) have is secondto-none. That is part of their success, as is the willingness of seasoned members to pass along their knowledge to newer mechanics. It's a great story. Also in this edition is a shout-out to Anrak Construction and Plus Sweeping's utilization of some great female operators. This company has figured out that women can do everything men can do.

You'll also find a Legal Update on another great win for our Public Employee units, some more great union history and what to expect this year in terms of the election of Officers and Executive Board members. By the time you receive this, we will have had our firstquarter district meetings and elected members (at these meetings) to your Political Action Committees (PACs) and the Election Committee from each district. Thank you to those who were elected and thanks to the members who attended and participated in this voting process.

Let's hope that by the time this magazine drops, the rainy season has cleared, because there is so much work on the books. We are biting at the bit to get out there and get started. Much of this work is from the Infrastructure Investment and Jobs Act (IIJA) passed in 2021, which has added \$350 billion to federal infrastructure spending, with \$41.9 billion being allocated to California alone in 2022. Nearly \$23 billion of that has already been announced, \$13.6 billion has already been distributed, nearly \$2 billion of that has been dedicated to active projects involving public transportation and nearly \$5 billion is for roads, bridges and freight projects. What this means is there IS SO MUCH WORK for us. As for the other states within our jurisdiction, in the first years of the act, 491 projects received funding from it in Utah, 150 projects received funding in Nevada and 154 projects received funding in Hawaii. This funding is a direct result of a pro-union administration, so let's fight like hell this year to make sure we continue to see these kinds of results from the office of the president.

I hope every one of you can appreciate the value of the work you do, not just for the benefits and security it offers you and your family but also for the value your work adds to your community. Does that school have a state-of-the-art track field? Only because of your skill. Does the stretch of highway once marked by slides and flooding now run smoothly? Only because you did it. Does a new shopping complex employ people from your neighborhood? That's because you graded the land it could sit on. And does your local police force respond to emergencies effectively? That's because you dispatched them directly during that 911 call. You are what keeps our communities safe, mobile and employed. Don't forget that! Our job is to continue protecting your ability to have those jobs and the good wages and benefits that go with them.

Dan Recting

At a recent Yuba City District Meeting, 2022 Apprentice of the Year Thomas Miller, receives recognition for his honor and is joined by his family.

A word about some exciting changes to your administration

As you will notice in my title above and also on page 2 in this edition, as of March 1, 2024, Steve Ingersoll has retired from the position of Local 3 president, and I have been appointed as your new president. Please refer to page 2 in this edition to see the new

officer appointments, noting that your newest officer is Treasurer Jimmy Jacobs. Jimmy has been a Local 3 member since 1990 and has held numerous positions in the field, mainly as a crane operator, and on staff, as a special rep. for cranes and dredging. Most recently, he was the district rep. in Fairfield District 04, prior to accepting his role as an officer. He will do a great job for this membership as your treasurer and will introduce himself in greater detail next month.

I am honored to be your new president. Having first joined the union in 1997 as a plant operator, I learned early on about the importance of my union's representation. I wanted to be a part of the negotiations process and also to build our membership, and so I took a position on staff as an organizer in the Fairfield District office in 2002 and then transferred to Sacramento District 80 as a business agent. Four years later, I was promoted to the district rep. position in my Building Trades, and my time in California and Utah have helped me understand the complexity of organizing and negotiating contracts in both states. In September 2015, I was elected as the union's treasurer and became financial secretary in May of 2016. I was appointed vice president in 2019 until this

home state of Utah in 2010. I have served as the president of the Utah

I was appointed vice president in 2019 until this year, when I was appointed president.

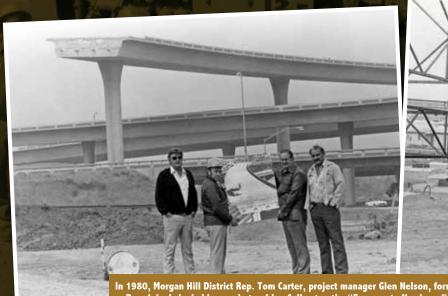

More importantly, perhaps, than all my roles and titles, is my appreciation of this great union and its members. Every day I work to improve the lives of our members, which is the basis on which I make every decision for this local. Sometimes this includes determining who to hire on staff. Sometimes, it's how to handle negotiations or how best to communicate details to the membership. I look forward to this role as your president and give you my word that I will give this my all. I am also extremely confident in this administration and in the staff who represent you. We are going to have a great year. It was also nice to see so many of you at the Semi-Annual Event! Stay tuned for photos of this event in coming editions.

{{ New President Justin Diston.

This month in LABOR History

FREEWAY TO NOWHERE NO MORE

There was a time back in 1976, when everyone thought that freeway funding in California would die on the vine. At that time, the economy was bad and dozens of projects had been stalled due to environmental concerns. Symbolizing this unhealthy state of affairs was the infamous "Freeway to Nowhere" in San Jose, an interchange that was supposed to have connected highways 101, 680 and 280, but because Caltrans had run out of money, the structure sat half-finished in the middle of the valley. On Jan. 3, 1976, a San Jose City Councilmember named James Colla enlisted the help of Local 3 and lifted an old car atop that sadly stalled structure. The press that resulted was instrumental in getting the wheels rolling on the project. Local 3 members were able to get to work on the project and finally finished the freeway. The photographs below tell the story better than words!

In 1980, Morgan Hill District Rep. Tom Carter, project manager Glen Nelson, former city council member James Colla and Business Rep. John Luba hold up a photo of Joe Colla atop the "Freeway to Nowhere." Thanks to this effort, OE3 finished the project.

LEGAL

City of Stockton has cracks in its case Public Employee members win legal case

OE3 has achieved another important win for our public sector members in a case before the Public Employment Relations Board (PERB). OE3 filed an Unfair Practice Charge (UPC) against the City of Stockton in May 2021, alleging violations of the Meyers-Milias-Brown Act (MMBA), the California state law that governs employment relations in the public sector, for subcontracting bargaining unit work without prior notice to Local 3, which effects our unit members. The City also failed to furnish information requested by Local 3 related to the subcontract, which the union is entitled to under the MMBA as the exclusive bargaining representative.

The specific matter involves a group of 15-20 members employed with the City of Stockton as part of the Traffic and Streets Division. Their duties include maintaining safe roadways throughout the city, which includes performing the work of crack-sealing. Cracksealing entails placing adhesive materials into pavement cracks creating a seal, which slows deterioration and extends the life of the roadway. The process prevents damage to wheels caused by cracks and potholes in the road.

Although this work had been done by our members for as long as can be remembered, using two crack-seal trucks in the fleet, the City subcontracted the crack-sealing work without notifying Local 3.

Local 3 did not discover the violation until Public Employees business rep. Mike Eggener (now retired), received a bid list from the

Highway heroes

By Timothy J. Haigh, business representative

We all know and recognize the black and white patrol units of the California Highway Patrol (CHP). We can also easily recognize their officers' tan-colored uniforms, but there are many non-uniformed CHP employees who may not be so easily recognized. These employees also deserve recognition!

One of these classifications within CHP is the Commercial Vehicle Inspection Specialist (CVIS) I. These faithful employees perform highly important tasks to ensure the safety of the motoring public. Their efforts save inestimable lives each year.

CVIS members work at highway inspection facilities performing routine inspections of commercial vehicles and drivers to determine if they comply with weight, size, registration, safety, equipment, hazardous materials and driver requirements. They also ensure the vehicles are in compliance with the California Vehicle Code and other laws and regulations governing these vehicles. If a vehicle is non-compliant, it may not be safe on the road, putting everyone else in jeopardy. They are members of the Commercial Unit who oversee commercial vehicle safety.

A CVIS is assigned to one of the 17 various Commercial Vehicle Enforcement Facilities (CVEF) located throughout California. Each individual CVIS plays a vital role in helping to keep California's roadways safe, and we are extremely proud to represent these unsung heroes! City indicating that the crack-sealing work would be subcontracted out. Local 3 immediately objected to the City's plans to subcontract the work, demanded that City officials cease and desist from moving forward with it and requested information related to the subcontract. The City ignored the union's demands, prompting the filing of the UPC.

City officials attempted to defend their actions by contending that they had the management right to subcontract bargaining unit work under a Stockton Municipal Code section. They also

> argued that the union waived its right to challenge the subcontracting because the MOU adopted the Municipal Code section.

> > PERB agreed with Local 3. In its decision, the Administrative Law Judge underscored the employer's obligation to give the union prior notice of its desire to subcontract bargaining unit work and an opportunity to bargain over its decision and the effects. The judge ordered, among other things, the following: (1) that the City of Stockton cease and desist from unilaterally subcontracting the crack-seal work; (2) rescind the contract they had with

the subcontractor; and (3) make the bargaining unit members whole for lost wages. This was an important win for the unit and a reminder to our members to bring any information about improper subcontracting to the attention of your union representative as soon as possible.

From left: CVIS Job Steward Jacob Hartman, who works at the Donner Pass CVEF, and Unit 12 Business Rep. Timothy Haigh.

Pre-Retirement Call-in Meetings this month

The first round of the 2024 Pre-Retirement Call-in Meetings is scheduled for the fourth full week in April. See the schedule below. Be sure to mark the date for the call-in meeting in your jurisdiction, as there will be one meeting per jurisdiction. More information regarding the login credentials for these meetings will be mailed to you at your home address on file with the union. Remember to update your e-mail address with the union, if you would like to receive the meeting materials by e-mail.

CALL THE FRINGE BENEFITS SERVICE CENTER NOW! 800.532.2105 510.748.7450

The Fringe Benefits Office is here to assist you with your Fringe Benefits questions. Our office hours are Monday through Friday, 8 a.m. to 5 p.m. Please call **(800) 532-2105**, if you have any Fringe Benefits questions or are interested in scheduling an appointment.

- CA April 22, 6 p.m., Pacific Standard Time (PST) (All CA Districts)
- ► UT April 23, 6 p.m., Mountain Standard Time (MST)
- ► NV April 24, 6 p.m., PST
- HI April 25, 6 p.m., Hawaii Standard Time (HST)

By Bob Miller, fund representative/client services **OE3 FUNDS**

Each year, in the spring and fall, the Trust Funds Office, in conjunction with the Fringe Benefits Office, holds a series of phone-in, onehour classes covering retirement from A to Z. These are held at the approximate time you receive your annual and semi-annual Pension statements. See the Fringe Benefits schedule above.

Simply follow the instructions on the card that will be mailed to you:

- Dial the call-in number at 6 p.m., your time, and enter the access code.
- ► Have spouse, pencil and paper with you.
- Set aside one hour for the class.

RETIREMENT FROM **A-Z**

The topics/questions covered during the class include:

- ► How to read a Pension statement
- Calculating values of Pension credits
- What happens if a member dies before retirement?
- Burial benefit
- When do I apply for a pension?
- When do I get my medical eligibility package (if applicable)?
- When may I retire?
- How much will I get when I retire?

- Husband/Wife Pension retirement options
- ► Eligibility for Retiree Health and Welfare
- Hours banks and possible three-month extensions
- What does the standard Retiree Health and Welfare Plan cover?
- Surviving spouse Medical/Dental coverage
- ► Cost of Medical/Dental
- ► Medicare enrollment at eligible time
- Rules for working after retirement
- ► Retiree work addendum
- Delayed retirement incentive (Bonus Pension) eligibility and calculations.

The transition into retirement is the fulfillment of a long-term dream, countless hard-earned hours and years of work. Please dial in and join us for this educational and informative class, so you make the right decisions entering your Golden Years!

Individual consultations available through phone or Zoom

Please call (707) 290-1834 or (800)-251-5014 to arrange a phone or zoom conference to discuss your personal situation. We can help guide you through all phases of Trust Fund issues including:

- * Retirements
- * Annuity questions
- * Medical Claims
- * Health and Welfare issues
- Pension credits from other
 - crafts / local

* Enrollments

* Death Benefits

- * Returning to work
- * Appeals
- * Prescriptions drugs
- * ... and more!

We, at Zenith American Solutions, as your Trust Funds Administrator, put your needs and concerns as our No. 1 priority, always.

CEMA strategic planning

By Lawrence Su, business representative

The County Employees Management Association (CEMA) Executive Board had another productive annual board planning session. Board members continue to evaluate and prepare actionable items that accomplish their organizational priorities through a work plan and their political priorities through a political action plan. Ahead of every year, CEMA prepares a budget to meet the demands of the upcoming year, and we are pleased to have a budget that does just that.

Unsurprisingly, contract negotiations are the top priority. With Santa Clara County wrapping up negotiations, and Santa

Clara County Superior Court and Monterey County spending the next couple of months preparing for their upcoming negotiations, CEMA recognizes that our members depend on a contract that solves the problems encountered in the previous contract and provides robust wages that address inflation and incentivize retention. Throughout this work plan, we continue to focus on increasing our membership and how to best mobilize them. We are also preparing to celebrate CEMA's 50th anniversary. More details will be coming out later in the year, as to how you can participate in celebrating decades of advocacy, since CEMA's inception was in 1974.

With this year being a consequential and competitive election year, it is paramount that CEMA ensures its issues. CEMA has been building its political infrastructure over the years and has made an indelible mark in the local political landscape, but it requires the activation of members to power its efforts. That is why we encourage members to contact their union representative to help elect leaders who value our working families and the importance of unionized labor. CEMA remains committed this year and always to serving its members and delivering results on its organizational and political priorities.

political action plan elevates its endorsed candidates who will vote

on CEMA/OE3's future contracts and resolve high level workplace

Westlands Water District members ready for negotiations

By Allen Dunbar, business representative

OE3's Westlands Water District members are putting plans together later this year to get the best contract in the Central Valley for a Water Irrigation District.

Led by negotiation team members James Isbell and Damien Camerena, negotiations should go smoothly. These members are also shop stewards and new employee orientation coordinators, who make sure the employees of Westlands Water District Miscellaneous Group stay 100 percent union and 100 percent together.

We will keep you posted on the upcoming negotiations.

OE3 members with the Westlands Water District are in good hands, as their negotiation team members prepare for negotiations later this year.

WOMEN OPERATORS RULE AT ANRAK AND THEY MAY START TO RULE THE CONSTRUCTION INDUSTRY IN GENERAL

We recently celebrated Women in Construction Week, a week dedicated to celebrating the rich history of women in an industry that has been historically male-dominated. True, women currently make up only about 11 percent of the workforce in the construction industry, but that number increased by 32 percent in the last five years. Still, women are a fairly untapped resource for organizing opportunities. The main culprit of this is the lack of awareness among women, who rarely hear about construction as a career option.

However, for Anrak Corporation and Plus Sweeping, women operators are doing an amazing job in this difficult industry, and including them is by design. Anrak Corporation and Plus Sweeping President Tom Schmidt said he is very proud of the women he has in this industry.

"It's good to get a mix of humans, and the ladies are off-the-hook good," he said. "There's opportunity where there once wasn't. The ladies are top-notch. I'd hire them all day long. They do everything our guys do, if not better!"

Anrak sweeper operators Jessica Abbott, Bethany Hammer and Sydney Free, as well as Sweeper/Grinder (mill) Operator Bailey Herrling are part of a 45-person team enjoying their careers with Anrak Corporation Plus Sweeping. Anrak has been in business for more than 40 years and provides asphalt milling, cold-planing and sweeper services across California, Nevada and Oregon. Anrak's family culture means that male or female, these employees feel supported.

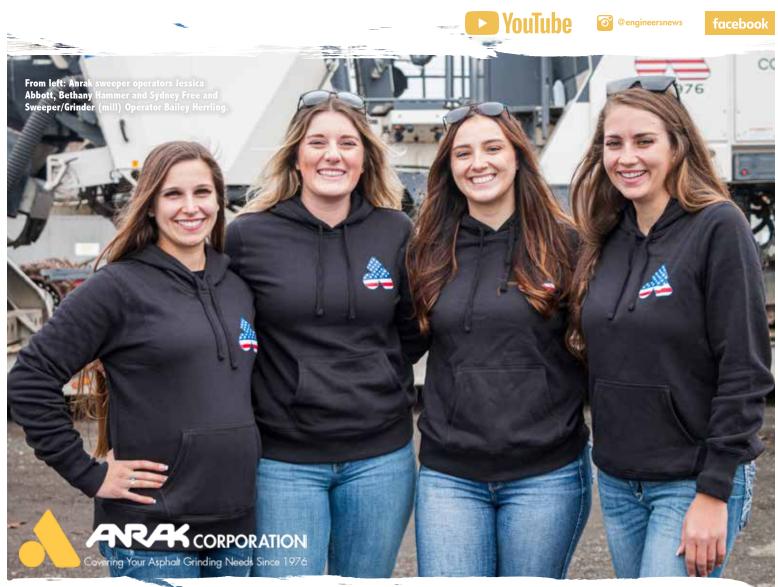

For Sweeper Operator Sydney Free, who is on her third season with Anrak, the ability to work in a profession largely comprised of men has helped her confidence, not just in the industry, but in life.

"This job has built a confidence in me in every way – how I speak, how I hold myself and how I communicate with others," she said. "I love my job. It's the type of work that you don't think you can do it, until you try, and that's for men or women."

According to Sweeper/Grinder (mill) Operator Bailey Herling, who has actually trained some of her female counterparts, the best advice for a woman interested in this industry is to talk to other women who are in it.

"You might surprise yourself," the former Raley's store manager said.

Look for more photos, information and videos about Anrak and this crew on Local 3's official YouTube page, on Instagram and on Facebook. *

HAVE YOU CONSIDERED AN ADJUSTABLE RATE MORTGAGE?

Purchasing a home is a big decision and comes with a large financial commitment. Our Credit Union, OE Federal, wants you to know an **Adjustable Rate Mortgage (ARM)** can be a better option to consider when mortgage rates are higher.

WHAT IS AN ARM?

ARM stands for Adjustable Rate Mortgage. ARMs offer a lower interest rate, along with fixed principal and interest payments, for either 5, 7, or 10 years. Once this fixed period is over, the mortgage rate will adjust based on the current market.

WHY ARE ARMS POPULAR WHEN RATES ARE HIGH?

ARMs are more popular than traditional fixed-rate mortgages during times of higher rates because ARMs offer a lower interest rate during the first 5, 7, or 10 years. Because of this, ARMs can make home purchasing more affordable.

WHY ARE ARMS A GOOD CHOICE?

ARMs are beneficial for buyers who plan to sell their home before the 30-year mortgage term ends, as they'll only need to deal with rate adjustments for a short period of time. If the buyer sells the home within the 5, 7, or 10 years, they won't have to deal with rate adjustments at all. However, if you're buying in a higher rate environment, the rate adjustment could work out in your favor! Once your rate is subject to review, your rate could decrease.

HOW DO ARMS COMPARE TO OTHER MORTGAGE RATES?

ARMs tend to have lower initial interest rates than traditional 30- or 15-year fixed-rate mortgages. Of course, after the 5, 7, or 10 years are up, the interest rate will adjust according to current market rates. ARMs at OE Federal have a cap on rate adjustments to protect you from payment shock, which will be outlined in your mortgage contract.

WHAT DO I NEED TO CONSIDER WHEN SHOPPING FOR AN ARM?

- >> Will you be maxing out your monthly budget?
- >> Are mortgage interest rates rising now?
- >> Will I be able to afford payments within the adjustment caps?
- >> How long do you plan to live in this home?

CAN I REFINANCE MY CURRENT MORTGAGE TO AN ARM?

If you have a fixed 30- or 15-year mortgage, and you plan on selling your home within the next 5, 7, or 10 years, an ARM can be an excellent choice.

An ARM can be a favorable way to finance a home purchase, especially in a high rate environment. DE Federal Credit Union offers 5, 7, or 10-year ARMs.

Meet our instructors – Part III

For the last three months, we have been introducing you to the Operating Engineers Local 3 Journeyman and Apprentice Training Center (OE3 JATC) instructors. They all came from the field, but it is important to know that not everyone who comes from the field makes a great instructor. It is so much more than just experience. A great instructor needs patience, attention to detail, leadership and enthusiasm for the importance of passing our skills onto the next generation. I am happy to say that your instructors at the OE3 JATC have these qualities, and we couldn't run our program without them.

JAMES "JIM" SETTLEMOIR -

Jim is a Construction Equipment Operator (CEO) instructor and has been a Local 3 member for 25 years, working in the field first with grading crews all over the Central Valley. He has also had experience at the training center as a Commercial Drivers License (CDL) instructor. He enjoys his current position, because he gets to work with a lot of talented instructors and gets to meet a lot of very promising apprentices.

"It is very rewarding to be able to pass along the experiences I have had over the course of my career," he said.

CASEY KELLY

Casey is a support equipment instructor. He began his career at a non-union company where he spent 10 years learning the trade. He joined Local 3 in 2004, while working for Teichert Construction as a journey-level utility hand, operating skip loaders, backhoes, excavators, scrapers, dozers and the support blade. Casey spent the last several years in the field as a blade man, before accepting the instructor position.

"I enjoy sharing my experience with the next generation of operators," he said.

CHRIS HYDE

Chris is the OE3 JATC gradesetting instructor and has been in the industry for 12 years. He started his career as a Laborer and moved up to OE3 after learning to set grade as an apprentice in 2014. After completing the program, he worked for Teichert Construction.

RYAN CARTER

Ryan is a CEO instructor and has been a Local 3 member since 2006, joining when he was just 18 years old. His journey began as an apprentice, focusing primarily on the underground aspects of projects across the Bay Area. In the field, he operated excavators, loaders, backhoes and bulldozers. In the field, he was a dedicated operator and foreman for Sanco Pipelines, Inc.

"I find great fulfillment in my role as a CEO instructor at the OE3 JATC, as it

is a tremendous honor to contribute to the growth and development of aspiring operators," he said. "I am committed to dedicating my remaining years of service to the Apprenticeship Program in any capacity possible," he said. "I take immense pride in my career with Operating Engineers Local 3 and my long-standing association with Sanco Pipelines, Inc. Working alongside skilled professionals and being part of the OE3 JATC has provided me with invaluable experiences, and I look forward to continuing to make a positive impact within the Apprenticeship Program."

Earlier this year, at the Grand Sierra Resort in Reno, Nev., 14 OE3 apprentices were honored in a graduation ceremony from the Northern Nevada Operating Engineers Joint Apprenticeship Committee (JAC). These new journey-level operators include Joseph Chatterton, Adam Denetsosie, Justin Lindsey, Kyle Leuders, Zachary Maes, Aaron Markewich, Christopher Maurer, Scott Miller, Aaron Olocki, David Preston, Sharon Sommervold, Mallory Todeschini, D'Andre Watson and Bret Weyrick.

Special congratulations to Grading and Paving Apprentice of the Year Bret Weyrick, Heavy Duty Repairman (HDR) Apprentice of the Year Adam Denetsosie, 2023 Employer of the Year Road and Highway Builders and 2023 Supervisor of the Year Steve Southern (with Road and Highway Builders). Special thanks to JAC Administrator Brian Prather (Master of Ceremonies), Rob Bagley from Q&D Construction (invocation), Nevada District Rep. Dylan Gallagher (introductions) and the JAC and Nevada District 11 staff.

Awards were presented by Business Manager Dan Reding, recently retired president Steve Ingersoll, Rec.-Corres. Secretary Dave Harrison, OE Federal Credit Union's Yvonne Lassere, Sen. Catherine Cortez-Masto, Rep. Kurt Engelhart and Truckee Meadows Community College (TMCC) Dean Kimberly Harrell.

OE3 President Justin Diston and Vice President Bruce Noel were also in attendance, along with families and friends of the graduates. Congratulations to the new journey-level operators who are embarking on a great career as Operating Engineers! The sky is the limit for these new journeymen, as they can become foremen, join the union staff or even one day become a Local 3 officer!

A short history on Health and Safety in Local 3: 1980s

Not only has Local 3 been at the forefront of training, organizing and lobbying on behalf of its members – the union has also been at the forefront of implementing advanced safety training and mental health resources.

In January 1981, Local 3 announced the establishment of a new Alcoholic Recovery Program (ARP) to help members who needed assistance or counseling for an alcohol abuse problem. This program later became the Assistance and Recovery Program (ARP), which we have today. This program offers support and treatment options for all substance abuse issues, not just alcohol, and was one of the first of its kind in the United States for union members. Though Nancy Reagan's "Just Say No" campaign raised awareness about drugs, the construction industry had not addressed the rampant abuse of substances within it.

A new focus on physical health also started during this decade, as the union began to understand that unhealthy members had more medical issues, hospital visits and expensive medications. How could the union keep these healthcare costs down for its members? It began printing articles about how to get in quick exercises, diets for a healthy heart and ways to quit smoking. Again, at the time, this was revolutionary, because most people smoked and ate whatever they wanted.

Staying healthy and safe also encompassed preventing injuries on the job. In 1982, members were regularly warned about jobsite hazards, such as working under power lines and among high-voltage electric lines and natural gas lines. The union was also at the forefront of hazardous waste training. In 1986, Congress passed legislation to protect workers in hazardous waste operations, but Local 3 took the lead in February 1988, by holding its own 40-hour hazardous-waste training class, a class that continues to this day (HAZMAT).

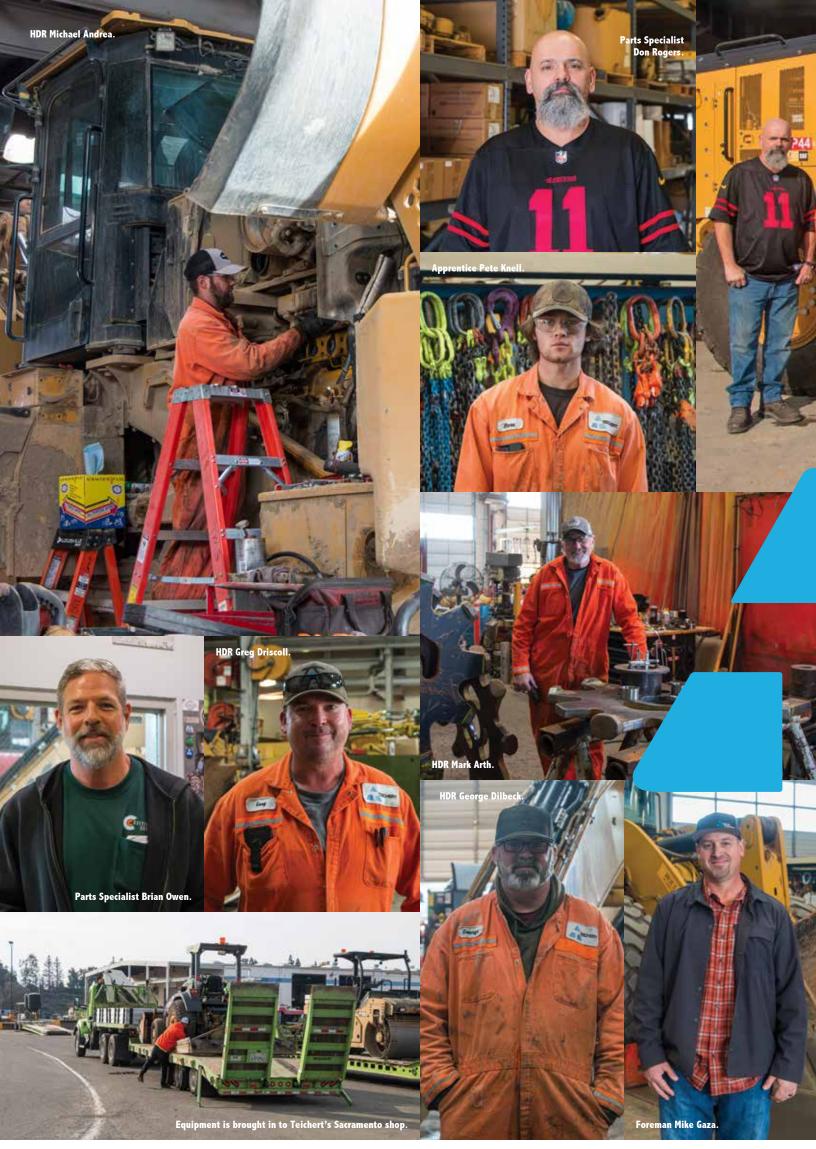

Attacks on labor, and even Labor Safety occurred at the political level in 1987, when California Gov. George Deukmejian pulled the plug on the state's Occupational Safety and Health Administration(Cal-OSHA). Immediately, Local 3 backed efforts to restore the agency, and in 1988, thanks to those efforts, the agency was restored.

Cal-OSHA was definitely needed, and, in 1989, a crane collapsed in downtown San Francisco, killing four operators and a bus driver and injuring 21 others. The crane had begun to swing out of control while "jumping" the crane, or when the tower lifts the operator – cab, jib and all – into the air so a new tower section can be slid underneath and bolted into place. The crane's 160-foot boom swung away from the building and slammed into an office high-rise. The impact caused the crane to collapse. After this tragedy, Local 3 pushed for more crane certification, resulting in legislation that required a license for any crane operator before operating the equipment. Crane certifications are still a necessary part of crane operation for our members today.

The 1980s were a big year for safety within Local 3, and as usual, our union was at the forefront of implementing groundbreaking policies and programs meant to ensure the mental and physical wellbeing of our membership. Many of these programs exist today, and you can thank your union for that!

rom left: Service pin recipients Donnie Rogers, Warren Smith, Ray Valim, Dustin Eaton, Mike Gaza, Ben Wolf, Brian Owen, Mark Arth, and Tony Auban work at Teichert's shop in Sacramento.

OVERHAULS THROUGH THE RAINY SEASON

Engineers News recently visited OE3 members working at the Teichert shop in Sacramento, Calif., where they are getting a variety of heavy equipment ready for what's expected to be another busy work season for operators in the field.

"Sometimes winter can be busier, because we've got to try and get stuff going for the spring and summer," explained Foreman Mike Gaza.

"In the summertime, we just keep the equipment going, only doing major repairs when there's a major failure," said Heavy Duty Repairer (HDR) Michael Andrea. "In wintertime, there's more of a heavy overhaul."

Those overhauls involve everything from engine rebuilds to major welding jobs. It's hard but rewarding work, as Steward Steve Gribble explained.

"I've been in the union for going on 20 years," he said. "You work hard, but you make good money and you've got good benefits... It's a great career."

O @engineersnews

facebook

YouTube

Of course, hard work isn't all it takes. It also requires the skills, knowledge and training to do the job well, as crews are relying on the work these members do in the shop to do their own work in the field, finishing projects on time and earning good work hours in the process.

"You have to be a really good multi-tasker," said Parts Specialist Brian Owen. "But with attention to detail and a good work ethic, you'll go far."

Thanks to those attributes, many OE3 members have, in fact, gone far with their careers in Teichert's shops. Just a few months ago, Business Agent Jesse Greer was able to deliver service pins for nine members who have done just that at the Teichert shop in Sacramento. These pins were awarded to members with 20 to 35 years of union membership and, when combined, represented more than 290 years of experience among the crew working in that particular shop.

To see photos and videos of these members at work, visit the *Engineers News* Instagram account (@engineersnews), go to OE3's YouTube channel or check out the Operating Engineers Local 3 Bulletin Board on Facebook. *

Members keep fleet of cranes in working order Report

Sheedy Drayage Co.'s yard is in San Francisco's Dogpatch neighborhood, nestled between Potrero Hill and the Potrero Power Station, south of the Chase Arena. Foreman John Speck oversees the company's day-to-day operations at the yard, which includes maintenance and repair of the cranes by Heavy Duty Repairers (HDRs) Jim Buckalew and Carlos Rubio. Apprentice **Gus Amador** is learning the trade from these experienced hands and becoming a valuable part of the team. Together, this group of dedicated operators are responsible for more than 20 cranes and six tractor trailers.

To the south, in San Francisco's Visitacion Valley district, our members are working on the \$80 million Sunnydale Hope SF redevelopment project. The project sits on 1.2 acres and involves constructing 95 housing units. A&B Construction is onsite with Excavator Operator **Omar Sanchez** installing underground utilities. Bigge Crane and Rigging is onsite with lift operators Felipe Rodriguez and Lucas Schenck and Tower Crane Operator **Darnell Stevenson**. Below Hahn Street and Sunnydale Avenue, **Preston Pipelines** has Foreman Jose Padilla, Excavator Operator Mark Streller and Apprentice Oziel Munoz digging, trenching and loading broken asphalt onto ten-wheelers.

In South San Francisco, our members are working on the Kilroy Oyster Point project, which sits on a 50-acre waterfront site. Once completed, it will feature a mixture of office, retail and life science buildings. Teichert Construction is onsite with Foreman Jason Whitaker, Blade Operator Miguel A. Gonzales Jr., Excavator Operator Brock A. Esquivel and gradesetters Matthew Hartman and Antonio J. Diaz. Also in South San Francisco, members are working on the 27-acre Southline project, which is a mixed-use, transit-oriented development. Steps away from Bay Area Rapid Transit (BART) and walkable to Caltrain, this seven-building campus will add up to three million square feet of office and lab space. BKF Engineers is onsite with Party Chief Randy Miranda and Chainman Adam Blitch. A&B Construction has Operator Sergio Chavez working on the utilities. Teichert Construction has Superintendent Joshua Kelley, Foreman David G. Arizpe and blade operators Eric A. Correa and Travis Rea performing the grading.

Operators repair road damage from storms

Report

This year's work picture in Solano County continues to look promising, even though winter rains shut down most projects in the area. At the time of this writing, O. C Jones and Sons, Inc. has had our members patch-paving road damage caused by winter rains on I-80. Our members with Bridgeway Civil Constructors continue to build retaining walls, as part of an I-80 widening project that will be completed by the end of the year. Our members with **Dutra Construction** have been busy at the company's fabrication shop and yard in Rio Vista, as they get ready for another busy year of levee repair work.

Don't forget to attend our District Picnic. Details are in the flier to the right!

Members working for Dutra Construction in Rio Vista include, back row, from left, Javier Corona, Adam Hopkins, Brandon Mendez, Horacio Pineda, Fernando Galvan, Tyler Thomas and Dwayne Dodson, and, back row, from left, Jeremy Zimmer, Vincent Pace, Mario Marquez, Jason Salts, Mark Losado and Doug Ackermann.

City, county and school district projects put members to work Report

10

In Mendocino County, T&S Construction is working on the \$5.9 million City of Fort Bragg Raw Water Line replacement project. The project involves working on steep terrain and in a pigmy forest and will continue over the next 18 months. Wahlund Construction is also working in Fort Bragg. Our members there are working on a \$10.5 million Wastewater Treatment Plant (WWTP) rehabilitation project for the city. Wahlund Construction is also putting our members to work on the \$11.1 million Mendocino Unified School District (MUSD) Water Supply and Storage project, which includes demolishing two existing water tanks, erecting two new potable water storage tanks and digging new wells. Work also includes redeveloping two existing wells and adding a new well head and new pipelines connecting eight existing wells. They are also demolishing the old water treatment and control building and constructing a new one.

Rege Construction is working on Phase 1 of Lake County's Eastlake Sanitary Landfill expansion project, where our members will construct a new cell for the landfill. The project includes clearing and grubbing, mass excavation, installation of a geosynthetic clay liner and the construction of access roads and a drainage system. If you want to know more about these or other projects, please contact the Hall.

With the work season upon us, please make sure that your phone number and address listed with the union are correct, as we do not want anybody to miss a good opportunity due to having outdated contact information on file. Also, be sure to check your registration on the Out-of-Work List with our dispatcher. Remember, if you are on the A or B lists, your registration is good for 84 days, and if you are on the C-list, your registration is good for one calendar month.

We hope to see everyone at our District Picnic on April 7!

Retiree laid the foundation for his and his sons' careers

Report

Wheeler Machinery, Utah's Caterpillar dealer, opened its doors in 1951. After just a few years, our organizers helped the company see the benefits of partnering with Operating Engineers Local 3. Wheeler Machinery technicians are held to a higher

Address

12

standard than anybody else in the business. The company offers great pay, benefits and working conditions, resulting in it being a highly sought-after company to work for and one where generations of the finest technicians in Utah have been employed.

Retired, 46-year member Fred "Freddy" Boehme started working for Wheeler Machinery in 1977, just after his oldest son was born. He specialized in field welding and gained a reputation for his willingness to do anything asked of him, as well as his ability to fix anything he worked on. He also worked harder than many people half his age until the day he retired. A 3,500-hour year was normal for Freddy.

With his career well-established at Wheeler Machinery, Fred and his wife of 49 years, **Kristy**, were able to raise four children. Today, two of their kids, **Chad** and Cory Boehme, work as field technicians for Wheeler Machinery themselves. Chad has

been a Local 3 member for 25 years, and Cory has been a Local 3 member for 13 years.

In addition to raising their own children, Fred and Kristy took

care of others, as if they were their own. For example, one young man moved to Salt Lake City from a small town 180 miles away, but didn't have anyone to stay with, at the time. Fred and Kristy didn't hesitate to help him, welcoming him into their home as if

Phone Number

(801) 596-2677

he were a member of the family. To this day, the young man has nothing but good things to say about them. They truly are amazing people!

Retirees are so fun to talk with! They can relate stories of the brotherhood that this union stands for and are always so thankful for everything they have received after working through a fulfilling career. Don't miss the opportunity to meet these dedicated members at your union meetings. Local 3 wouldn't be where we are today without these brave men and women who paved the way and made it possible for today's Operating Engineers to reap the benefits. We can repay them for their years of service by standing in solidarity with each other and fighting for the rights and privileges they secured for all of us.

Our Town Hall meetings are quickly approaching! We encourage all Operating Engineers to attend these meetings and bring

their significant others, as they share the evening with their fellow members. The date, time and location for these meetings are in the Meetings and Announcements section on page 29.

11

From Reno

Report

Work is beginning to pick up throughout the region, and our signatory contractors currently hold 71 percent of the market share on prevailing wage projects. This is great news for our

Addres

members, who can expect to benefit from the steady work hours of another busy year. Some of that work will be on a \$7.5 million project on Yori Avenue, which will employ members with several signatory contractors.

Thank you to everyone who came out to our district's Retiree and District Meetings last month. It was great to see so many familiar faces. Another opportunity to come together is coming up with our District Picnic, which will be held on June 29. There will be good food and lots of fun for the whole family. Contact the Reno Hall to purchase tickets in advance.

From Elko

Acha Construction is finishing a new truck fueling station in Ely and has picked up additional work in the area that will be starting soon. Ames Construction continues to keep our members busy at the Meickle Mine in Carlin and has picked

up an additional ore haul at the same site, which will require additional operators. **Canyon Construction** is returning to the few small projects around the area. **Granite Construction** is returning to a small mine project in the Carlin area that will keep a few members busy through spring. **N. A. Degerstrom** is still

From left: Retired president Steve Ingersoll, Ames Construction Foreman Mike Shields, Senior Business Agent Phillip Herring and District Rep. Dylan Gallagher visit members at the Meikle Mine.

going at the Cortez Mine in Crescent Valley, has picked up some additional work in the area and continues to work at the Rossi Mine outside of the Carlin area and the Gold Bar Mine in Eureka. **Remington Construction** has been keeping our members busy at

> the Coeur Rochester Mine in Lovelock and continues to bid on more work in the area. **Road & Highway Builders** is keeping some of our members working on dirt projects in the Elko area. **Sterling Crane** is keeping members busy throughout the Elko area, as well as at mines in the eastern part of the state.

At the time of writing this, gold is at \$1,993. Your business agents are scheduling more site visits, as well as visiting the bus stops, and look forward to meeting with the membership during these visits.

On Feb. 8, retired president **Steve Ingersoll**, District Rep. **Dylan Gallagher**, Senior Business Agent **Phillip Herring**, Business Agent **Ralph Handel**, Business Agent **Kevin Rains** and Business Agent **Lyman Hatfield** went on an underground tour at Nevada Gold Mines' (NGM's) Exodus Mine. This visit allowed them to see the everyday operations of the mine

and experience being underground. Our members were surprised and incredibly happy to see their Local 3 officers and staff deep in the mines and down in the dirt with them. Remember, if you have any questions or concerns, stop by the Elko District Office or contact your business agent.

Quarries, plants ready for the work season

Report

Rock quarries in our district, like **Teichert**'s Vernalis Plant, have kept our members busy with maintenance work over the past couple of months, which ensured they were able to meet demand now that work is firing up. **United Pavement Maintenance** is working on water mains, and **Mozingo Construction** is working on sewer lines for the La Loma project in Modesto. **Ranger Pipelines** is also in Modesto, where our members with the company are working on the River Trunk Realignment Gravity System project. **Teichert Construction** and **Knife River Construction** are working on several housing development projects in Manteca. **Sanco Pipelines** is working on the Tracy Lakes housing development project. **Sinclair General Engineering** is working on transmission line upgrades for the San Francisco Public Utilities Commission (SFPUC). Join us for our 39th Annual District Picnic on May 5 from 11 a.m. to 4 p.m. at Micke Grove Park. Further details about the event are available on page 28. Contact any of your business agents or call the Hall to purchase tickets in advance. We appreciate your support and hope to see everyone there!

Project to provide thousands with renewable energy Report

17

Our members with Site Constructors, Inc. are working on Hawi Renewable Development LLC's \$4 million wind farm. The project sits on a 250-acre cattle farm and involves refurbishing the blades and gear box generators for 16 turbines, in order to extend their life for an additional 20 years. Once completed, the Hawi Wind Farm will have a 10.56 kW capacity and support 2,100 homes with renewable energy.

We wish former president Steve Ingersoll a happy retirement. We worked closely with him as our officer in charge, and he did great things for our union and our district. We welcome new Treasurer **Jimmy Jacobs** and look forward to working with him and our new officer in charge, President Justin Diston. Many thanks to him, the officers, staff and members and their families who attended our recent round of meetings. As usual, these meetings went well and plenty of food and good union fellowship were had by all!

Street, sewer improvement projects keep crews busy

Report

In Hayward, Vanguard Construction has started a \$5.2 million improvement project along D Street that involves demolishing existing curbs and gutters and adding sidewalks. O. C. Jones and Sons, Inc. will also be onsite, removing and replacing pavement for the project.

Ranger Pipelines is also in Hayward, where our members are working on an \$11.1 million sewer line improvement project by performing underground utility work. So far, they have installed and repaired miles of sewer lines throughout the city.

This year, there are important political races throughout our district. This includes the race for Fremont's mayor and a school board election that will decide how more than \$1 billion in bond funds will be spent. It is crucial to vote in favor of legislators that support our union and our work, so be sure to vote and do so with Local 3's endorsements in mind. These will be available in this magazine and online (www.oe3.org) in the coming months.

Sold out Crab Feed brings members and community together Report

In February, Local 3 officers, staff, members, their friends and families, as well as signatory employers, local elected officials and candidates, industry representatives and numerous other allies within the North Coast's labor movement, gathered at the Sequoia Conference Center in Eureka, Calif. for our Annual Eureka District 40 Crab Feed.

The event sold out this year, and guests braved the stormy weather to attend the event, with some members arriving by limousine (provided at no cost by the Best Western Humboldt Bay Inn to those who stayed at the hotel, while in town).

The venue was packed with guests enjoying good company, great food, a well-supplied bar (thanks to the Humboldt/Del Norte Building and Construction Trades Council), live music (provided by Blue Rhythm Revue), dancing and a raffle drawing that included prizes unique to the district, like a painting by Retiree Brian Bishop, crab pots and a carved redwood sculpture, among many other great prizes.

Thank you to everyone who attended, including Retired president Steve Ingersoll and Rec. Corres. Secretary Dave Harrison, and a special thank you to the volunteers and OE3 staff members who worked hard to organize and set-up the successful event.

Signatory employer increases union projects in mostly non-union area

Repor

Dawson-Mauldin Construction has been a signatory employer since 2004. During that time, the company has employed hundreds of Operating Engineers and improved its market share in the area. With the size and value of projects awarded to the company increasing every year, and with access to Local 3's second-to-none workforce, Dawson-Mauldin Construction continues to grow and build a strong legacy in the Central Valley.

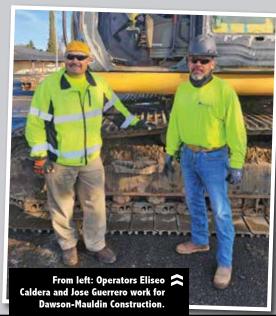

Address

50

It is thanks to the work of signatory employers like Dawson-Mauldin Construction that engage with the Hall, build new crews and take on more work, that Local 3 is able to build long-term partnerships within our industry that ultimately benefit our members.

Dawson-Mauldin Construction is currently working on the \$10 million Villa Street reconstruction project in Porterville. Work on the project began mid-February and completion is scheduled for this September. Up to eight journey-level operators and one apprentice will be working throughout that time and will be doing everything from replacing the underground utilities to regrading and paving between Olive Avenue and Henderson Street in Porterville.

Dawson-Mauldin Construction has

more than 15 Local 3 members working for it. These members perform most of the work on the projects the company is awarded on its own, without needing to bring in subcontractors. In the process, Local 3 members working for the company learn to be skilled in many aspects of construction that are needed in the underground, grading and paving segments of our industry. This approach has made the company one of the most successful in

the region. It has also made it possible for the company to compete against a long list of non-union contractors in the southern parts of our district, which has traditionally been a tough market for Local 3 signatories to break into. Dawson-Mauldin Construction isn't confined to the southern parts of our district, however, and the company currently has projects in Fresno, Clovis and west of I-5. We are proud to provide Dawson-Mauldin Construction with the most skilled and diverse Operating Engineers in the industry.

Our membership in District 50 has continued to grow in recent years. Right now, we are up from the 1,800 members we had just a few years ago, to 2,400 members, and we are confident this upward trend will continue for years to come.

Kick-off the work season with some fun at our District Picnic! Report

Despite recent storms, our members with Mercer-Fraser have continued to work on the \$90 million Hwy. 70 Roadway Reconstruction Project in Plumas County. This is only one of many projects that have either just begun, or will be continuing in our district. Contact Dispatcher Chris Martin if you would like further details about this year's

work picture.

This is a great time of year to enjoy being outdoors, and what better way to do that than to attend a picnic! Our annual District Picnic is set for Sunday, April 28 at the Loma Rica Lions Club. This picnic gets bigger and better every year, with more friends and families coming together to enjoy good food, great raffle prizes and fellowship with one another. Stage-Coach Barbeque will be cooking up tri-tip, chicken and hot dogs with all the fixins', and there will be complimentary ice-cold beer

and soda. Discounted tickets are still available, so contact the Hall to get them or come by and take a peek at our mountain of raffle prizes.

Looking for a unique gift for a construction enthusiast? Retiree Ernest Hursey hand-crafts collectible wooden models in his

> spare time. These include models of cranes, dozers, excavators and more. One of Ernest's models will be raffled off at the District Picnic!

Thanks to all of of the members who attended our last District Meeting, as well as the Semi-Annual Meeting in March. The good attendance is a sign that our members are getting involved, which is exactly what it takes to keep our union strong. Thank you to this membership for their support and for always putting their best foot forward.

District Representative

Jason Chipley

This wooden model of a blade was handcrafted by Retiree Ernest Hursey and will be one of many raffle prizes at the upcoming District Picnic.

Paving projects awarded throughout district

Report

Many paving projects, large and small, have been awarded to our signatory contractors recently. This includes projects awarded to J. F. Shea, Tullis, Inc., American Pavement Systems, All American Construction and Mercer-Fraser, all of which will be putting our members to work on paving and chip-seal projects throughout the district. S. T. Rhoades will be keeping crews busy on the Old Alturas Bridge project in Redding. **McCuen Construction** will continue to work on the Southbound I-5 Truck Scales project near Cottonwood. Kiewit will be ramping up work on the Klamath Dam Removal project. At the time of this writing, Steve Manning Construction is the apparent low bidder at \$35 million on the Horse Creek Bridge project on Hwy. 96 in Siskiyou County.

Continuing education and certification training is essential for our members, and we are happy to announce that our district hosted another successful, in-district Hazmat Refresher class! Big thanks to Safety Director J. D. Friend for coming up to Redding to train our members.

As it says in the name, the Operating Engineers Local 3 Journeyman and Apprentice Training Center (OE3 JATC) isn't just for apprentices. It does an amazing job of offering stateof-the-art training for our journey-level members, as well. If you are curious about which journeyman-upgrade courses are available this year, contact the OE3 JATC at (916) 354-2029. Take advantage of this member resource, and you can obtain certifications that are great to have when looking for work and trying to advance your career. These include Advanced Apprentice B, Hazmat and Occupational Safety and Health Administration (OSHA) 10/30. Also, if you know someone interested in applying for our Apprenticeship Program, have him or her visit the OE3 JATC's website at OE3JATC.org, where the online application process is available.

Apprentice Aubree Carding works for Tullis, Inc.

Work at and around the Sacramento International Airport continues Report

The 2024 work picture continues to improve, as infrastructure funding is released into the Bridge and Highway Fund, generating a lot of work for our members on Hwy. 80, Hwy. 50 and other important roadways in the region.

Our members continue to work on tilt-up warehouse projects around the Sacramento International Airport. They are also expanding the airport itself, with \$1.3 billion worth of work set to keep our members busy over the next 10 years. This work includes an expanded area for rental cars and ground transportation, a Terminal A exit road, a 5,000-lot parking structure for Terminal B, a new control tower and other projects that will be announced in the future. By negotiating a Community Workforce and Training Agreement (CWTA) with Sacramento County, the Sacramento-Sierra Building and Construction Trades Council (SSBCTC) is able to guarantee all of this work at the airport will employ union operators. O. C. Jones' and Preston Pipelines' \$14.6 million extension of Elkhorn Boulevard into the airport will provide trucks with direct access from the Metro Airpark area and a

frontage road to four new hotels. DeSilva Gates continues to work on a \$30.6 million lane-widening project that involves ramp modifications on I-5 from Arena Boulevard to the Sacramento International Airport.

On the Delta, **Dutra** is continuing to work on \$78 million worth of work making levee improvements. Flatiron/Teichert Joint Venture (JV) has our members performing \$115 million worth of work installing fiber optic lines and paving from West

Sacramento to Davis. Granite continues to **Members** with Granite work on the new \$175 million Sacramento Weir work on the Sacramento Weir project in West project in West Sacramento, which will involve moving 1 million yards of dirt and working on Sacramento. structural elements over the next four years. Our members with Foundation Constructors will also be onsite. We are happy to announce that the Komatsu dealership, Gee Heavy Machinery, Inc., has assumed an agreement with Local 3 after taking over from Road Machinery, which has moved out of the area. Gee Heavy Machinery, Inc. has established locations in West Sacramento, Fresno, Santa Rosa and Redding and has pledged

to keep the company union. If you are not working, please keep your registration updated on the Out-of-Work List by renewing it every 84 days, for existing members, or every month, for new applicants. When calling our District Office or the Operating Engineers

Local 3 Journeyman and Apprentice Training Center (OE3 JATC), remember to be courteous to union staff. They are just trying to support the membership, and they are our Local 3 brothers and sisters, so show them respect. Have a great season and be safe.

Hwy. 85, Hwy. 87 and I-280. Several Project Labor Agreement (PLA) projects are putting our members to work, including the Police Department Air Support Unit's (PDASU's) hangar project at the San Jose Airport, and the bleacher and bathroom renovations project at Foothill College, where **Guerra Construction** is the general contractor.

and Development project, which will be worth over \$2 billion and is being funded by the CHIPS Act, as well as continued work along

Remember to update your credentials and training with the Hall, as having certain qualifications on file can result in more opportunities. Our next District Meeting is on May 8 and will start at 7 p.m. at 325 Digital Drive in Morgan Hill. See you then!

OFFICIAL ELECTION NOTICE: OFFICERS & EXECUTIVE BOARD MEMBERS

Recording-Corresponding Secretary Dave Harrison, in compliance with the Local Union Bylaws, Article XII, Section 2(b), publishes the following notice:

 <u>Notice of Right to Nominate:</u> Bylaws Article XII, Elections, Section 2(j)

Eligibility of Members to Nominate: Every Member of the Parent Local Union and its Subdivisions (except Subdivision R Registered Apprentices) and (except for Owner-Operators of an entity that employs Operating Engineers), who is not suspended for nonpayment of dues preceding the first nominating meeting shall have the right to nominate.

 <u>Nominations</u> Bylaws Article XII, Elections, Section 2(e)

Nominations shall be in writing and signed by one or more nominators giving the complete Register Number.

- Number of Nominators required
- Bylaws Article XII, Elections, Sections 1(a) & 1(b)

The minimum number of nominators required for an Office, other than District Member of the Executive Board, is two-hundred (200) or two percent (2%), whichever is less, of the Members of the Local Union and its Subdivisions (except Subdivision R Registered Apprentices), who are not suspended for nonpayment of dues as of the first nominating meeting.

Bylaws Article XII, Elections, Section 1(c)

The minimum number of nominators required for District Member of the Executive Board is five (5) Members of the District.

Forms will be available at District Offices on April 11, 2024.

 <u>Notice and Acceptance or Declination of Nominee</u> <u>Bylaws Article XII, Elections, Section 2(g)</u>

The Recording-Corresponding Secretary of the Local Union must notify each candidate of his or her nomination and the Office to which he or she has been nominated. The candidate must return a written acceptance of the nomination to the Recording-Corresponding Secretary, which acceptance must be received by the Recording-Corresponding Secretary within ten (10) days of the date the candidate was notified of the nomination.

Bylaws Article XII, Elections, Section 2(i)

In the event no statement is received by the Recording-Corresponding Secretary on or before ten (10) days from the date the notice was received, provided for in Article XII, Section 2(g), the nominee shall be deemed for all purposes to have declined all nominations for the Offices or Positions for which he or she has been nominated.

NOMINATIONS WILL TAKE PLACE MAY 2024 (ALL MEETINGS WILL CONVENE AT 7 P.M.) PLEASE SEE PAGE 27 FOR MAY SPECIAL CALLED MEETINGS SCHEDULE
